The Farm Financial Standards Council is a non-profit organization consisting of professionals representing agricultural producer groups, banking, the Farm Credit System, accounting, insurance companies, financial advisors, agribusiness companies, academics and universities, private finance companies, cooperative extension, and other experts involved with agricultural production and finance.

The Council's Annual Meeting/Summer Symposium provides a forum for the application of financial and management accounting standards and issues. Professionals from all disciplines participate in the program at this annual event, both as presenters and observers. The session also provides an excellent environment for networking with others involved in agricultural management.

The Council is registered with the Division of Professional Regulation in Illinois as a sponsor of continuing professional education for public accountants. (License number 158.002205)

NOW AVAILABLE IN CD FORMAT

Both the *Financial Guidelines for Agricultural Producers* and the *Management Accounting Guidelines for Agricultural Producers* are available on a single CD.

This CD provides comprehensive, practical guidelines for financial reporting and management accounting in agriculture. Compiled by agricultural producers, lenders, accountants, and educators, these documents provide the first widely-accepted recommended practices for measurement of financial performance and development of management information systems for agricultural producers.

Academic and volume price discounts available.
